**New Background Check Policy
All Cal-Nev-Ha Kiwanis members,**

New Background Check Policies Effective April 1, 2020 and May 1, 2020 - Make Sure You Have a Clear Check on File! We have received new information from Kiwanis International regarding strengthened youth protection policies and procedures and want to make sure all members are aware and follow these new policies by the deadlines. Advisors will be receiving this letter via snail mail and email. Please be aware that there are updates that affect all levels of Kiwanis, single-day events without an overnight stay, overnight events, chaperones and District Administrators. Log on to Kiwanis Connect to make sure you have a clear criminal history background check on file with Kiwanis International at <https://reporting.kiwanisone.org/>

Sincerely, Mark McDonald, Executive Director

Cal-Nev-Ha District of Kiwanis International

**No Kiwanis club or district is permitted to deviate from Policy 16(d)(1), which states:
“Kiwanis International requires clubs to have a clear criminal history background check for any club member serving as an advisor to any Service Leadership Program club.”**

Therefore, any Kiwanis advisor to any Service Leadership Program who does not have a clear criminal history background check on file with Kiwanis International is not permitted to have any contact with youth at a Service Leadership Program meeting or event.

This policy has been in effect for several years and is not a change. As leaders in the organization, you understand that in order to serve the children of the world, we must keep them safe and continually demonstrate the importance of following all youth protection policies.

As of April 1, 2020, any Kiwanis International SLP advisor who does not have an approved criminal history background check on file will be ineligible to serve in the advisor role, and notice will be sent to the club secretary and district leadership. The Kiwanis International and Service Leadership Programs staff will make every effort to work with SLP advisors in completing this critical requirement.

Stroke has a new indicator

They say if you email this to ten people, you stand a chance of saving one life. Blood Clots/Stroke - They Now Have a Fourth Indicator, the Tongue

STROKE: Remember the 1st Three Letters..... **S. T. R.**

During a BBQ, a woman stumbled and took a little fall - she assured everyone that she was fine (they offered to call paramedics) ...she said she had just tripped over a brick because of her new shoes.

They got her cleaned up and got her a new plate of food. While

she appeared a bit shaken up, Jane went about enjoying herself the rest of the evening.

Jane's husband called later telling everyone that his wife had been taken to the hospital - (at 6:00 PM Jane passed away) She had suffered a stroke at the BBQ. Had they known how to identify the signs of a stroke, perhaps Jane would be with us today. Some don't die. They end up in a helpless, hopeless condition instead.

STROKE IDENTIFICATION:

A neurologist says that if he can get to a stroke victim within 3 hours, he can totally reverse the effects of a stroke...totally. He said the trick was getting a stroke recognized, diagnosed, and then getting the patient medically cared for within 3 hours, which is tough.

RECOGNIZING A STROKE

Remember the '3' steps, STR.

Sometimes symptoms of a stroke are difficult to identify. Unfortunately, the lack of awareness spells disaster. The stroke victim may suffer severe brain damage when people nearby fail to recognize the symptoms of a stroke.

Now doctors say a bystander can recognize a stroke by asking three simple questions:

S *Ask the individual to SMILE.

T *Ask the person to TALK and SPEAK A SIMPLE SENTENCE (Coherently)

(i.e. Chicken Soup)

R*Ask him or her to RAISE BOTH ARMS.

If he or she has trouble with ANY ONE of these tasks, call emergency number immediately and describe the symptoms to the dispatcher.

New Sign of a Stroke -----

Stick out Your Tongue!

NOTE: Another 'sign' of a stroke is this: Ask the person to 'stick' out his tongue. If the tongue is 'crooked', if it goes to one side or the other that is also an indication of a stroke.

A cardiologist says if everyone who gets this e-mail sends it to 10 people; you can bet that at least one life will be saved.
