#### **INVITING NEW MEMBERS**

More volunteers mean more service, but sometimes the idea of growing your club can seem daunting. Here are a few resources to make it easy:

- Educate others about the rewards of service with the <u>11</u> benefits of volunteering.
- Share the stats. Did you know Kiwanis annually raises US\$133 million and dedicates more than 19 million volunteer hours to strengthen communities and help children? Find more with Just the Facts.
- Get <u>tips from Kiwanis area directors</u>.
- Use our <u>pre-made graphics</u> on your favorite social media accounts to show others how much you love Kiwanis.

## **Service Leadership Program Advisor Background Checks**

Dear Kiwanians,

While the Kiwanis International requirement for background checks for those working with youth and our Service Leadership Programs (SLP) has not changed, the impact on non-compliant individuals and clubs has changed.

In an effort to seek compliance with KI's Youth Protection Guidelines, Kiwanis International has taken the step of notifying schools when an advisor's background check has expired, thereby disallowing the advisor's campus privileges. (See KI letters from earlier this year: <u>strengthened Youth Protection policies</u> <u>letter</u> and <u>sample non-approved advisor letter</u>.)

Additionally, if the SLP club is showing no advisors with approved background checks, Kiwanis International is removing the sponsoring club from the SLP roster.

It is of utmost importance to have background checks completed and paid, or update your records with advisors who have current background checks. Click here for a current list of those advisors who require updated background checks. Advisors need to log into the member portal (Kiwanis Connect) and initiate the background check process under "background check." Or contact the club secretary for a member-specific email link sent from the secretary dashboard. Contact Kiwanis International at backgroundchecks@kiwanis.org for a member-specific email link.

#### Stroke has a new indicator

They say if you email this to ten people, you stand a chance of saving one life. Blood Clots/Stroke – They Now Have a Fourth Indicator, the Tongue

**STROKE:** Remember the 1st Three Letters.... **S. T. R.** 

During a BBQ, a woman stumbled and took a little fall - she assured everyone that she was fine (they offered to call paramedics) ...she said she had just tripped over a brick because of her new shoes.

They got her cleaned up and got her a new plate of food. While she appeared a bit shaken up, Jane went about enjoying herself the rest of the evening. Jane's husband called later telling everyone that his wife had been taken to the hospital - (at 6:00 PM Jane passed away) She had suffered a stroke at the BBQ. Had they known how to identify the signs of a stroke, perhaps Jane would be with us today. Some don't die. They end up in a helpless, hopeless condition instead.

#### STROKE IDENTIFICATION:

A neurologist says that if he can get to a stroke victim within 3 hours, he can totally reverse the effects of a stroke...totally. He said the trick was getting a stroke recognized, diagnosed, and then getting the patient medically cared for within 3 hours, which is tough.

#### **RECOGNIZING A STROKE**

Remember the '3' steps, STR.

Sometimes symptoms of a stroke are difficult to identify. Unfortunately, the lack of awareness spells disaster. The stroke victim may suffer severe brain damage when people nearby fail to recognize the symptoms of a stroke.

Now doctors say a bystander can recognize a stroke by asking three simple questions:

**S** \*Ask the individual to SMILE.

**T** \*Ask the person to TALK and SPEAK A SIMPLE SENTENCE (Coherently)

#### (i.e., Chicken Soup)

**R**\*Ask him or her to RAISE BOTH ARMS.

If he or she has trouble with ANY ONE of these tasks, call emergency number <u>immediately</u> and describe the symptoms to the dispatcher.

#### New Sign of a Stroke ------

Stick out Your Tongue!

NOTE: Another 'sign' of a stroke is this: Ask the person to 'stick' out his tongue. If the tongue is 'crooked', if it goes to one side or the other that is also an indication of a stroke.

A cardiologist says if everyone who gets this e-mail sends it to 10 people; you can bet that at least one life will be saved.
